

**Young Adult WIN Team**  
**WIN Team Meeting Notes**  
**Feb. 7, 2019**

Attendance: Pastor Winter Hamilton, Heather Kellenberger, Nicki Reinhardt-Swierk, Chessey Brenton

Absent: Christy Fareel Queensenc, Emily Gauvain, Sarah Healy

**OLD BUSINESS**

Half of the videos have been completed, but Heather's video was so good, it inspired us to reshoot the rest.

1. Heather's video is perfect. She talked about her role in the church as someone who sits in the pews, and tied the connect cards to the mission statement of the church.
2. Nicki will make a video from her perspective as a social justice person. Importance of contextual ministry. Culture of collecting data.
3. Chessey- Its children and family/intergenerational. Its everybody.
4. Winter- This form of data gathering is what we are going to use outside of the church walls, where our millennials are already meeting. We don't have 100% yet-- Culture of collecting data.
5. Sarah- talk about what it means to be a number that hasn't been counted/acknowledged as a young person with no family, who is mostly involved outside of the church walls. And the new way of data, we're finding a way to count everyone, even folks who are involved outside the church. Some folks might be really involved in missions even if they aren't regular attenders every morning. We're all part of one community, etc.
6. Emily (maybe if your husband would be willing to do it with you) Hi Sunday morning! You might not recognize us from worship because we we help with the children's ministry downstairs--and no, we don't have kids. We attend Saturday worship because we love the small church feel, but we're also connected to the larger church. Even though they are part of smaller worshiping community--they are part of the larger community as well. Its really easy to feel lost in the crowd. By using the connect cards we can (Something from our mission statement) and remember that we are all a part of Manchester UMC.--Sorry, we were brainstorming to get you a lead and accidentally scripted it. Of course, you don't have to just read this.

We need to focus on a creation of a culture of data

**NEW BUSINESS**

Winter provided updates from her data meeting.

- Winter will present about our WIN team's work at UMC LEAD
- Jim will get leaders involved in taking data

Review of our timeline

- Our next big push will be for overhauling of the infant soothing room, nursing mother's space and update the nursery.

**ASSIGNMENTS**

- Videos due in 5 days. Upload to drive. MAKE SURE YOU MAKE IT SHARABLE SO WE CAN SEE IT!
- Winter will get these videos to Jim and get him on the schedule.
- Chessey will submit a list for our request for redoing the nursing/crying room by our next meeting (done with Sally)
- We will connect with Jim next week about "door prizes"
- If you have someone at church who could throw down \$20 or more to WIN TEAM, please ask. We want to raise \$600 by our next meeting.
- 

**NEXT MEETING:** We will create a plan for our presentation to the Leadership Board and start to get language for our push to update nursing/nursery space. Please bring your computers next week so we can price out what we need for the infant soothing room.

-We will revisit considerations about contracting vs. service.
